

## CLUB MATCH SCENE

Our club enjoys a thriving and varied match calendar, offering more than enough choice to satisfy even the most dedicated match angler.

We host competitions every two weeks throughout the year, organised into two main groups.

Our **Summer Series** takes place early on a Sunday morning, allowing anglers to enjoy a full match, while still being home in time for a traditional Sunday lunch with the family.

Our **Winter Series** begins slightly later in the day to accommodate the darker mornings, ensuring a comfortable and enjoyable start for all participants.

In addition to the Sunday matches we also organize a **Summer Evening Series** that runs every second Thursday from May through to the first week of August, offering relaxed but competitive midweek angling for everyone .

For those seeking even more variety, we also organise a programme of **away matches** on commercial fisheries across the North East, running from May to October.

Beginning in 2026, we are pleased to introduce a selection of **junior matches** during the summer months. These will conclude with the prestigious **Tommy Betts Summer Series**, consisting of three events held over the school holidays.

All junior matches will take place on our main lake, following the same format and standards as our senior competitions.

Please note, our matches are open to all members of the club as long as the Match Rules are followed correctly

Please refer to the comprehensive match schedule included in this section for full details of dates and start times for all events.
